

Advanced | Endosurgical Training Course for Cardiac Surgery Teams

This Medtronic EDGESM course is an advanced skills-based training program specifically designed to make you more competitive today and in the future.

Medtronic Cardiac Surgery invites you to participate in this unique, hands-on training course presenting advanced topics and procedural simulation for endosurgery.

Designed specifically for cardiac surgeons who have completed the EDGE Basic Guidewire, Catheter and Imaging Skills Course or who already have extensive endosurgical experience, this SkillTracSM course is the second step in your pathway to becoming proficient in performing advanced guidewire and catheter-based procedures. The course is also open to those members of your staff interested in acquiring highly useful skills that will support you in cardiac surgery. "Advanced Endosurgical Training" will continue to build the foundation for developing core competencies in the treatment of structural heart disease and other advanced guidewire and catheter-based procedures.

Presented by Medtronic Cardiac Surgery

EDGE

S K I L L T R A C

Expand your skills. Control your future.

Presented by

Medtronic Cardiac Surgery

Procedural hands-on training model sessions provide outstanding device and pre-simulation experience

Our exclusive EDGE simulation training sessions provide realistic advanced procedural training

COMMITTED TO THE CARDIAC SURGEON

The Advanced Endosurgical Course consists of two concurrent training pathways. The first is an advanced topics curriculum for cardiac surgeons, and the second is a basic endosurgical pathway for members of their surgical teams.

Track I - Cardiac Surgeon

Enhance your knowledge with such topics as:

- Hands-on training model exercises
- Aortic Aneurysm Case Management
- Aortic Aneurysm Complication Management
- Advanced Endosurgical Device Study
- Advanced Endosurgical Complication Management
- EDGE Advanced Simulation Package I
- EDGE Advanced Simulation Package II
- EDGE Advanced Simulation Package III
- Cardiac Surgery staff working as a team

Track II - Cardiac Surgery Staff

Learn the basics of endosurgery:

- Introduction to the hybrid suite
- Summary of your role in this new environment
- Overview of procedural imaging techniques
- Introduction to basic guidewire and catheter devices
- Guidewire and catheter basic deployment
- Procedural simulation exercise module on Medtronic simulators
- Special devices for structural heart disease treatment
- Didactic procedural introduction and overview
- Procedural complication resolution techniques
- Advanced case simulation with your cardiac surgeon

Distinguished faculty

Highly experienced cardiac surgeons, radiologic technologists, and other healthcare professionals proficient in advanced endosurgical procedures and techniques will provide advanced procedural simulation and hands-on, skill-based training designed specifically for cardiac surgeons and members of their surgical teams.

Please note: These courses offer skills-based training and case analysis only and do not provide training on any specific Medtronic product or related therapy.

Register today

Registration fee (\$1295 for non-STS member cardiac surgeons, \$1195 for STS members, \$695 for cardiac surgery staff members) includes:

- Advanced Cardiac Surgeon course tuition
- Basic Cardiac Surgery Staff course tuition
- Endosurgery devices and tools
- Course handouts and workbook
- Instruction by faculty cardiac surgeons and supporting staff trainers
- Advanced simulation fees and simulation staff trainers
- EDGE Simulation packages I, II and III
- All meals during class time
- Return ground transportation to the airport

Registration fee does not include:

- Air fare
- Lodging for one night
- In-bound ground transportation

FEES: All fees drawn on U.S. bank in U.S. dollars. Checks should be payable to Medtronic, Inc. — EDGE Advanced Endosurgical Training for Cardiac Surgery Teams.

American Express, MasterCard, VISA and Discover cards also accepted.

REFUNDS: Should you find that you must cancel your registration, your registration fee less 20% will be returned provided you notify Medtronic in writing 15 days prior to course start date. No monies will be refunded after that date.

CANCELLATION POLICY: Medtronic reserves the right to cancel the symposium, change, or add course dates. In the case of a cancelled course, all fees paid would be refunded.
